

Parent Survey Themes Spring 2021

While there are many positive comments there are inevitably some negative ones too, but they are concerned with a specific year group and these have been passed on to the SLT for consideration and action.

There has also been some helpful comments and suggestions from the parent survey that will be taken forward and put into practice if we find ourselves in lockdown again.

Extract of the positive comments:

- Good level of support
- I feel we are well supported.
- I think the school is doing a great job providing home learning on the whole.
- Online lessons are great for face to face contact and creating daily structure. Feedback is appreciated too to help with not feeling alone.
- My child has really enjoyed the addition of a live element of teaching. It is also helps to better structure the day
- Great communication and support for kids and parents too!
- Some teachers are engaging well through remote learning, some spend 40 mins a day doing it!
- The support received so far is a significant improvement on lockdown 1. Thank you for all your efforts.
- The online lessons are working really well and the range of subjects is interesting for us parents as well as our children
- We think the teachers are doing a great job in providing home learning in as structured a way as possible in the circumstances. We feel the children are getting a varied amount of work in clear 'lesson' periods.
- Appreciate the effort.
- Thank you and well done to all staff
- Thank you to the staff team for working brilliantly for the children and parents. You have all done such a great job, its much appreciated.
- I would like to thank all the staff for what they are doing. The lessons are great and well thought out and organised, meaning less stress for parents and children. The screen free time on Wednesdays is a wonderful concept.
- Very well done Gamston school. I think you have all done a brilliant job and I thank you for that.

- I think Gamston is doing really well under difficult circumstances. My child is becoming really sick of lockdown and wants to be back at school with friends. Maybe a zoom chat with friends could be organised every week to help the children stay in touch with each other.
- We think the teachers are working really hard in difficult circumstances and on the whole, we are very satisfied with the quality of home learning provided.
- Thank you to the staff team for working brilliantly for the children and parents. You have all done such a great job, its much appreciated.
